

ENVIRONMENTAL POLICY

This policy is an integral part of our corporate culture to ensure respect for both the environment and the company in which we operate. The engagement and attention of all the employees are essential to protect the Environment around us.

SAIP is focused on:

- Adopting a philosophy leading to compliance with laws, national and local environmental regulations, authorization requirements and compliance obligations.
- Protecting the environment, by preventing pollution and reducing emissions into the atmosphere.
- Setting targets for continuous improvement of environmental performance and check of the shelf life of activities and products.
- Adopting technological processes with the lowest environmental impact both in technical and economic terms.
- Assessing environmental aspects of activities and products to implement procedures aimed at minimizing any significant environmental impact.
- Adopting a separate waste collection system inside the company.
- Educating and training all company employees to promote and encourage any initiative aimed at environment protection.
- Encouraging suppliers to adopt an environmental procedure.
- Including growth and environmental sustainability in corporate investment strategies.

Commitment to respect and care for the Environment is a key component of our work and our growth path.
